TERMS & CONDITIONS

PLEASE READ THESE PRIVATE TOKEN OFFER TERMS & CONDITIONS CAREFULLY. NOTE THAT SECTION 14 CONTAINS A BINDING ARBITRATION CLAUSE AND CLASS ACTION WAIVER, WHICH AFFECT YOUR LEGAL RIGHTS. IF YOU DO NOT AGREE TO THESE TOKEN SALE TERMS AND CONDITIONS, DO NOT PURCHASE TOKENS FROM ENERGY+ TECHNOLOGY HOLDINGS AG.

Your purchase of eQOM Tokens (each, a “Token”) from Energy+ Technology Holdings AG during the sale (as defined below) is subject to these Terms and Conditions (the “Terms”). Each of you and the Company is a “Party”, and together the “Parties” to these Terms. By purchasing Tokens from the Energy+ Technology Holdings AG during the private offer, you will be bound by these Terms and any terms incorporated by reference.

If you have any questions regarding these Terms, please contact the Company at: info@pluspunktenergie.tech

Each of you and the Company agree as follows:

1) COMMENCEMENT AND DURATION OF THE PRIVATE OFFER

eQOM Token Private Offer information is contained in this document. Energy+ Technology Holdings AG will conduct an eQOM private sale of Tokens, which will begin on Oct 01, 2022, 00:00 UTC (the “Launch Date and Time”) and end at a date and time to be determined by Energy+ Technology Holdings AG (the “End Date and Time”) or when the total available supply of tokens has been sold.

Stage 1: 5 Million eQOM- Token Value 0,35 Euro

Stage 2: 5 Million eQOM- Token Value 0,45 Euro

Stage 3: 7 Million eQOM- Token Value 0,55 Euro

2) ELIGIBILITY

To be eligible to participate in the eQOM private Token Sale and to log into the eQOM Token portal to make a purchase, you will need to visit <https://www.pluspunktenergie.tech> (the “Energy+ Technology Holdings AG Website”). You must also have a wallet that supports the BSC token standard in

order to receive any Tokens purchased from Energy+ Technology Holdings AG (the “Token Receipt Address”).

Energy+ Technology Holdings AG reserves the right to prescribe additional guidance regarding specific wallet requirements. Energy+ Technology Holdings AG is not responsible for any delays, losses, costs, non-delivery of funds or of Tokens, or other issues arising from the failure to provide, or providing an inaccurate or incomplete Token Receipt Address. Energy+ Technology Holdings AG is not responsible for any loss occurring due to incorrect or wrong input of Energy+ Technology Holdings AG eQOM Token Smart Contract address. Energy+ Technology Holdings AG will never share the eQOM Token private Sale Smart Contract address on any Social Media Channels nor will the address be shared by email, chat programs or on any online forums. The correct address of the Energy+ Technology Holdings G eQOM Token private Sale Smart Contract will only be shared on our official website: <https://www.pluspunktenergie.tech>

3.) PURCHASE AND SALE OF TOKENS

While the Price Per Token is set in Euro, you must pay for Tokens in any of the following crypto currencies: Ethereum (ETH), Bitcoin (BTC), USDT or USDC or the following FIAT currencies: US Dollars (USD), Euro (EUR), Great Britain Pound (GBP) or Swiss Francs (CHF). Payment in any other currency as mentioned above will be qualified by Energy+ Technology Holdings AG as non-valid and will be rejected.

Your purchase is not guaranteed until Energy+ Technology Holdings AG receives the full amount of the Purchase Price net of transaction costs.

Purchase Price must be received in full within twenty-four hours (in the eQOM private Token Sale). If Energy+ Technology Holdings AG has not received the payment of the full Purchase Price within twenty-four hours of the time (from the moment that we have send you) that you receive your payment instructions, Energy+ Technology Holdings AG reserves the right to void your purchase request and might refuse to accept your payment of the Purchase Price. For the avoidance of doubt, the Purchase Price will be deemed to be paid in full once Energy+ Technology Holdings AG has received three network confirmations of the transaction in the case crypto currencies are used, or confirmation on their bank statement if FIAT currencies are used. Energy+ Technology Holdings AG reserves the right, in our sole discretion, to modify any of the timelines described herein to account for network congestion or other technical challenges.

Delivery of Tokens: Energy+ Technology Holdings AG intends to deliver the quantity of Tokens you purchased in the eQOM private Token Sale latest within twenty-four hours after receiving the payment in full.

If by chance, there is some unforeseen technical delay Energy+ Technology Holdings AG reserves the right to deliver the tokens: (i) up to four weeks after the eQOM private Token Sale End Date; or (ii) up to one week after you have provided a complete and accurate Token Receipt Address. For the avoidance of doubt, any such extension of time will not affect the obligation of both Energy+ Technology Holdings AG and you to deliver and accept the Tokens purchased. Energy+ Technology Holdings AG may also deliver the tokens sooner at their sole discretion.

4) PURPOSE AND USE OF THE TOKENS

The eQOM Token is a Project/Product/Utility token. Energy+ Technology Holdings AG issues the eQOM Token as part of a project with the intended outcome of establishing the complete and licensed legal structure at the Project end date and time. (the “Project End”)

Each eQOM Token represents one Voucher that can be substituted for a portion of an equal Product of the Project at the Project End or at start of industrial production.

Additional information regarding the Project and Energy+ Technology Holdings AG is summarized in the Whitepaper available at <https://www.pluspunktenergie.tech> (the “Whitepaper”).

RIGHTS

Purchase, ownership, receipt, or possession of eQOM Tokens carries no rights, express or implied, other than the right to use eQOM Tokens as a Voucher as described above. In particular, you understand and accept that eQOM Tokens do not represent or confer any ownership right or stake, share, security, or equivalent rights, or any right to receive future shares of revenue, intellectual property rights or any other form of participation in or relating to the Project and/or Energy+ Technology Holdings AG and/or its corporate affiliates, other than any rights relating to the Voucher as described above, subject to limitations and conditions in these Terms.

eQOM Tokens will be listed and eQOM Token holders may trade their tokens acquired through the eQOM Token sale through an exchange or through

private sales. The Project and/or Energy+ Technology Holdings AG and/or its corporate affiliates are no Party in any sale, private or through an exchange, other than the eQOM Token sale, and do not accept any responsibility or liability whatsoever, nor on the corporate level, either on the private level.

The Company reserves the right to migrate the eQOM Token to another protocol in the future should the Company determine, in its reasonable discretion, that doing so is necessary or useful to achieve the intended Project outcome. If and when such arises, the Company will have the obligation to communicate such migration of protocol immediately and without delay on its website www.pluspunktenergie.tech.

Unless otherwise stated herein, these Terms only govern your purchase of Tokens from Company during the Sale.

5) CANCELLATION; REFUSAL OF PURCHASE REQUESTS

All eQOM Token purchases from the Energy+ Technology Holdings AG are final, and there are no refunds or cancellations, except as may be required by applicable law or regulation. Energy+ Technology Holdings AG reserves the right to refuse or cancel eQOM Token purchase requests at any time in its sole discretion.

6) TOKEN ALLOCATION

Important information about Energy+ Technology Holdings AG 's creation and intended use of the eQOM Tokens is provided in the Whitepaper to these Terms. By purchasing eQOM Tokens, you acknowledge that you have read and understood the Whitepaper to these Terms.

7) ACKNOWLEDGEMENT AND ASSUMPTION OF RISKS

You acknowledge and agree that there are risks associated with purchasing eQOM Tokens, owning eQOM Tokens and using eQOM, as disclosed and explained to these Terms and the Whitepaper.

YOU ACKNOWLEDGE AND AGREE THAT THERE ARE RISKS ASSOCIATED WITH PURCHASING EQOM TOKENS AND OWNING EQOM TOKENS INCLUDING (BUT NOT NECESSARILY LIMITED TO) THE RISKS DESCRIBED IN THESE TERMS.

7.1) Risk of Losing Access to Tokens Due to Loss of Private Key(s), Custodial Error, or Purchaser Error

A private key, or a combination of private keys, is necessary to control and dispose of eQOM Tokens stored in your digital wallet or vault. Accordingly, loss of requisite private key(s) associated with your digital wallet or vault storing Tokens will result in loss of such eQOM Tokens. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet service you use, may be able to misappropriate your eQOM Tokens. Any errors or malfunctions caused by or otherwise related to the digital wallet or vault you choose to receive and store eQOM Tokens in, including your own failure to properly maintain or use, is yours to bear.

7.2) Risks Associated with the BSC Protocol

Because eQOM Tokens and the platform are based on the BSC protocol, any malfunction, breakdown, or abandonment of the BSC protocol may have a material adverse effect on the platform or eQOM Tokens. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to the eQOM Tokens and the platform,

including the utility of the eQOM Tokens, by rendering ineffective the cryptographic consensus mechanism that underpins the Ethereum protocol. Such digital wallet or vault may also result in the loss of your eQOM Tokens. Additionally, your failure to follow precisely the procedures set forth in for buying and receiving eQOM Tokens, including, for instance, if you provide the wrong address as the eQOM Token Receipt Address, or providing an address that is not BSC compatible, may result in the loss of your eQOM Tokens.

7.3) Risk of Mining Attacks

As with other decentralized cryptographic tokens based on the BSC protocol, the eQOM Tokens are susceptible to attacks by miners in the course of validating eQOM Token transactions on the BSC blockchain, including, but not limited, to double-spend attacks, majority mining power attacks and selfish-mining attacks. Any successful attacks present a risk to the platform and the eQOM Tokens, including, but not limited to, accurate execution and recording of transactions involving eQOM Tokens.

7.4) Risk of Hacking & Security Weaknesses

Hackers or other malicious groups or organizations may attempt to interfere with the platform or the eQOM Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, because the platform is based on open-source software, there is a risk that a third party or a member of Energy+ Technology Holdings AG team may intentionally or unintentionally introduce weaknesses into the core infrastructure of the platform, which could negatively affect the platform and the eQOM Tokens, including the utility of the eQOM Tokens.

7.5) Risks Associated with Markets for eQOM Tokens

The eQOM Tokens are intended to be used solely within the platform, but the Company will support secondary trading or external valuation of eQOM Tokens. Secondary trading of eQOM Tokens is facilitated by third party exchanges, such exchanges may be relatively new and subject to little or no regulatory oversight, making them more susceptible to fraud or manipulation. Furthermore, to the extent that third parties do ascribe an external exchange value to eQOM Tokens (e.g., as denominated in a digital or fiat currency), such value may be extremely volatile and diminish to zero.

7.6) Risk of Uninsured Losses

Unlike bank accounts or accounts at some other financial institutions, Tokens are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer, such as the Federal Deposit Insurance Corporation, or private that will compensate your loss.

7.7) Risks Associated with Uncertain Regulations & Enforcement Actions

The regulatory status of tokens and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications, including the platform and the eQOM Tokens. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including the platform and the eQOM Tokens. Regulatory actions could negatively impact the platform and the eQOM Tokens in various ways, including, for purposes of illustration only, through a determination that the purchase, sale and delivery of the eQOM Tokens constitutes unlawful activity or that the eQOM Tokens are a regulated instrument that require registration or licensing of those instruments or some or all of the parties involved in the purchase, sale and delivery thereof. Energy+ Technology Holdings AG may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction.

7.8) Risks Arising from Taxation

The tax characterization of eQOM Tokens is uncertain. You must seek your own tax advice in connection with purchasing eQOM Tokens, which may result in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.

7.9) Risk of Competing platforms

It is possible that alternative platforms could be established that utilize the same open-source code and protocol underlying the platform and attempt to facilitate products and/or services that are materially similar to the what the eQOM Token represents and the Project intends to deliver. The platform may

compete with these alternatives, which could negatively impact the platform and eQOM Tokens.

7.10) Risk of Insufficient Interest in the platform or Distributed Applications

It is possible that the platform will not be used by a large number of individuals, companies and other entities or that there will be limited public interest in the creation and development of distributed platforms (such as the platform) more generally. Such a lack of use or interest could negatively impact the development of the platform and therefore the potential utility of the eQOM Tokens.

7.11) Risks Associated with the Development and Maintenance of the platform

The platform is continuously under development and may undergo significant changes over time. Although Energy+ Technology Holdings AG intends for the eQOM Tokens and platform to function as one might expect and intends to take commercially reasonable steps toward those ends, Energy+ Technology Holdings AG may have to make changes to the specifications of the eQOM Tokens or platform for any number of legitimate reasons, especially related to achieve the Project outcome. This could create the risk that the eQOM Tokens or platform, as further developed and maintained, may not meet your expectations at the time of purchase. Furthermore, despite the Energy+ Technology Holdings AG 's good faith efforts to develop the platform, it is still possible that the platform will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the platform and eQOM Tokens.

7.12) Risk of an Unfavorable Fluctuation of BNB or BTC

If the value of the accepted crypto fluctuates unfavorably during or after the Privat Sale, Energy+ Technology Holdings AG team may not be able to fund the Project sufficiently or may not be able to develop or maintain the platform in the manner that it intended. In addition to the usual market forces, there are several potential events which could exacerbate the risk of unfavorable fluctuation in the value of crypto, including but not limited to uncertainties created by the lack of resolution to the bitcoin scaling debate, the possibility of a so-called "Hard Fork" of bitcoin if one of the competing camps in the scaling debate decides to force the issue; another DAO-like attack on the Ethereum network; or significant security incidents or market irregularities at one or more of the major cryptocurrency exchanges.

7.13) Risk of Dissolution of Energy+ Technology Holdings AG or platform

It is possible that, due to any number of reasons, including, but not limited to, an unfavorable fluctuation in the value of crypto (or other cryptographic and fiat currencies), decrease in the eQOM Tokens intended use of achieving Project outcome, the failure of commercial relationships, or intellectual property ownership challenges, the Project might not achieve its intended outcome.

7.14) Risks Arising from Lack of Governance Rights

Because eQOM Tokens confer no governance rights of any kind with respect to the platform or Energy+ Technology Holdings AG, all decisions involving Energy+ Technology Holdings AG 's activities or Energy+ Technology Holdings AG itself will be made by Energy+ Technology Holdings AG at its sole discretion, including, but not limited to, decisions to discontinue the Project, to create and sell more eQOM Tokens, or to sell or liquidate Energy+ Technology Holdings AG. These decisions could adversely affect the Project outcome and therefore the outcome of the eQOM Tokens you own.

Unanticipated Risks

Cryptographic tokens such as the eQOM Tokens are a relatively new technology in a mostly unregulated environment. In addition to the risks with such a technology, there are other risks associated with your purchase, possession, and use of the eQOM Tokens, including unanticipated risks. Such risks may further materialize as unanticipated variations or combinations of the risks discussed within and outside of these Terms.

8) Security

You are responsible for implementing reasonable measures for securing the wallet, vault or other storage mechanism you use to receive and hold eQOM Tokens purchased from Energy+ Technology Holdings AG, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s). If your private key(s) or other access credentials are lost, you may lose access to your eQOM Tokens. Energy+ Technology Holdings AG is not responsible for any losses, costs or expenses relating to lost access credentials.

9) Personal Information KYC/AML

Energy+ Technology Holdings AG may determine, in its sole discretion, that it is necessary to obtain certain information about you in order to comply with applicable laws or regulations in connection with selling eQOM Tokens to you. You agree to provide Energy+ Technology Holdings AG such information promptly upon request. You acknowledge that Energy+ Technology Holdings AG may refuse to sell eQOM Tokens to you until you provide such requested information and Energy+ Technology Holdings AG has determined that it is permissible to sell you eQOM Tokens under applicable laws or regulations.

10) Taxes

Any amounts that you pay for eQOM Tokens are exclusive of all applicable taxes. You are responsible for determining what, if any, taxes apply to your purchase of eQOM Tokens, including, for example, sales, use, value added and similar taxes. It is also your responsibility to withhold, collect, report and remit the correct taxes to the appropriate tax authorities. Energy+ Technology Holdings AG is not responsible for withholding, collecting, reporting, or remitting any sales, use, value added, or similar tax arising from your purchase of eQOM Tokens.

11) Purchaser Representations & Warranties

By sending any kind of coin to purchase eQOM Tokens from Energy+ Technology Holdings AG, you represent and warrant that you are responsible for withholding, collecting, reporting, or remitting any sales, use, value added, or similar tax arising from your purchase of eQOM Tokens.
